

# VIÑA BUJANDA

## PRODUCER PROFILE

Estate owned by: Familia Martínez Bujanda  
Winemaker: Lauren Rosillo  
Total acreage under vine: 300  
Estate founded: 1889  
Winery production: 740,000 Bottles  
Region: DOCa Rioja  
Country: Spain

## Vina Bujanda Gran Reserva 2010

### WINE DESCRIPTION

Viña Bujanda Gran Reserva, made of 100% Tempranillo, comes from Rioja Alta and Alavesa areas. The wine is fermented in stainless steel tanks for 162 days and aged in oak for 24 months before it is ready to enjoy. The resulting wine shows intense complexity and great aging potential.

### ABOUT THE VINEYARD

The 120 hectares of Viña Bujanda are divided into 18 plots, between 20 and 60 years old, with an average of 30 years. The estates are in Rioja Alta and Rioja Alavesa sub-areas, Logroño and Oyón basically, although the plots are very different from each other talking about soil compositions and sun exposure.

Viña Bujanda vineyards are of clay-calcareous and clay-ferrous soils. The first ones, with a typical ochre color are usual in Rioja Alavesa and part of Rioja Alta. They are ideal for Tempranillo and for the wine ageing. The clay-ferrous soils, with a reddish colour and typical in areas such as the Upper Najerilla are poor in organic material and offer bodied fresh reds and mineral substances that perfectly complement with the ones from the clay-calcareous areas, to offer a perfect balance which has always distinguished the traditional Riojas.

Viña Bujanda grows Tempranillo (red), Graciano (red) and Viura (white), the two most representative varieties of the wine region.

### WINE PRODUCTION

The work at the vineyards determines all the Familia Martínez Bujanda elaborations. The 18 plots into which the 120 hectares of Viña Bujanda vineyards are divided, are grown and vinified in tanks separately at the winery. Later, our team blends them to get the profile that has always distinguished the best Riojas: wines of good color and medium degree, not abusing the over extractions, where the elegance, silkiness and complexity of nuances are the main characteristics.

Fields are worked with a concept of sustainable viticulture, using natural organic material (skins and rest of pruning) to fertilize the vineyards and respecting the non-interventionist tradition inherited from our grand- and great-grandparents

At the wineries we count on the most modern and advanced technologies to guarantee the innovation and constant quality of all our wines.

Viña Bujanda winery has 2,000 barrels of American and French oak-tree, from selected barrel-makers, that combine the traditional ageing of the area with the subtle touches of the wood for the Viña Bujanda Crianza, Reserva, Gran Reserva and Graciano.

### TASTING NOTES

Intense cherry colour with blue rim, Bright and crystalline. Elegant and complex with hints of woodwork, vanilla, cigar-box and spices. Recall of blackberry, plums in liqueur. Intense with a big volume developing on the palate, showing a big freshness and elegance. Well-balanced acidity with the alcohol. Rounded and rich. Long finish.

### FOOD PAIRING

Medium and well matured cheeses. Strong and powerful stews. Steamed vegetables, legumes and chicken soup

### VINEYARD & PRODUCTION INFO

Vineyard name:	Rioja Alta and Alavesa
Vineyard size:	300 acres
Soil composition:	Clay
Training method:	Free System and Trellesing system
Elevation:	1,477 feet
Vines/acre:	1,214
Yield/acre:	2.4 tons
Exposure:	Eastern / Western

©2019 · Selected & Imported by Winebow Inc., New York, NY · winebow.com

Year vineyard planted:	1977
Average Vine Age:	30-35 years
Harvest time:	October
First vintage of this wine:	2004
Bottles produced of this wine:	20,000

### WINEMAKING & AGING

Varietal composition:	100% Tempranillo
Fermentation container:	Stainless steel tanks
Length of alcoholic fermentation:	16 days
Fermentation temperature:	82 °F
Maceration technique:	Pumpovers
Length of maceration:	6 days
Malolactic fermentation:	Full
Fining agent:	Bentonite
Type of aging container:	Barrels
Size of aging container:	225 L
Age of aging container:	Less than six years
Type of oak:	French and American
Length of aging before bottling:	24 months
Length of bottle aging:	4 years

### ANALYTICAL DATA

Alcohol:	13.6 %
pH level:	3.3
Residual sugar:	2.0 g/L
Acidity:	5.8 g/L
Dry extract:	27.0 g/L
